As a leading property company in Indonesia, MNC Land has made strategic decisions aimed at achieving more progressive future. Towards this end, we have invested in the development of a number of flagship projects—MNC Lido City, MNC Bali Resort, and MNC Smart City—that we believe will realize the company’s vision of “Creating the World Class Communities and Lifestyles of Tomorrow.”

In 2018, MNC Land has relaunched its online media with a fresh look. Now everyone can easily access information and updates about our property projects through our website, www.mncland.com. We have introduced this e-magazine, “The Land,” which will be published quarterly. Subscriptions are available through the MNC Land website.

Through these two new digital-based media, we will provide the most up-to-date and reliable information about MNC Land, along with the latest on style trends, travel destinations and more.

We hope this will prove useful to our customers, partners, and stakeholders as we look to the future with promise.

Bali is renowned for its palm-fringed white sand beaches, but away from the popular tourist spots lies a beach of another kind. Located on the Eastern tip of Bali, Amed Beach features coarse, black sand derived from the volcanic eruptions of nearby Mount Agung, giving it a unique and exotic beauty.

But the black sand on the coast of Amed is not the only special attraction for tourists. The coastline is an underwater playground with a magnificent trove of coral reefs that draw lovers of diving and snorkeling worldwide.

Only 10 meters from the shore, you’ll find coral reefs teeming with tropical marine species such as triggerfish, black snapper, banner fish and others, along with colorful marine flora. About 15 meters from shore is another favorite dive spot where Japanese patrol boats sank during World War II.

With the scenic backdrop of Mount Agung and some of the most dramatic sunrises in all of Bali, it’s no wonder Amed Beach captures the hearts of all who visit. Keen to have an experience that’s comparable to a beach holiday at the famous Black Sand Beach in Vik, Iceland? Enjoy Amed Beach—located on the eastern coast of Bali in the village of Amed, Abang District, Karangasem Regency. It’s about three hours from the Tanah Lot Temple or MNC Bali Resort, the biggest and most luxurious resort in Bali, currently under development by MNC Land.
